

# Hang Tag Landscape

(3.5" x 2.5" Drill hole size and location can be customized)

- SAFE ZONE:** All critical elements (text, logos, etc.) must be kept inside this area to ensure no important elements are trimmed from the final piece. This area is positioned  $\frac{1}{8}$  inch inside the trim line.
- BLEED AREA:** Background images or colors should extend to the edge of this area to ensure full-color, borderless printing. This area extends  $\frac{1}{8}$  inch beyond the trim line.
- TRIM LINE:** The trim line represents where the piece will be cut and indicates the final size of the piece. Pro Tip: Due to production variances, it's recommended to keep borders of at least  $\frac{1}{8}$  inch away from the trim line or avoid them completely.
